## Rise against Cancer... With New Rays of Hope

D.S. Research Centre is a premium research institute of India, successfully treating all kinds of cancer with the help of Nutrient Energy. Ever since its inception, it is delivering hope, health and happiness to the cancer patients throughout the world.

In 1965, DSRC's founder-professor duo, Dr. Uma Sankar Tiwari and Prof. Shiv Sankar Trivedi's hale and hearty younger brother Daya Sankar Tiwari died in Delhi within eight days of falling ill, without even his ailment being diagnosed or being provided with any proper treatment. This incident changed their life wholly and they started the quest to find answers to some of the gravest disease known to the mankind through Ancient Ayurvedic texts.

DSRC's invention, the Nutrient Energy Treatment, empowers the body and mind to combat Cancer. Their extensive research for over four decades have proved that nutrition supplements derived from human edibles can strengthen the body against cancer, which finally leads to overpowering the disease. Recently, at a Press Conference organized on behalf of CRC at Kolkata's Press Club, Dr. T. K. Chatterjee (Director – Clinical Research

Centre – Jadavpur University) said, "Ayurveda based invention of host energy from human edibles has immense potentialities to prevent and fight cancer. The result obtained by CRC after putting the medicine to 'animal test' was indeed remarkable." Thousands of deathbed patients, disappointed by the conventional treatments, got a new lease of life with the help of this treatment. Expert 'Ayurvedacharyas', Oncologists, dieticians are always there beside the patients to help them emerge victorious against the frightful disease. Not only that, this treatment is painless, safe and without any side effects.

A list of 926 patients has been sent to World Health Organisation (WHO) in three phases with all their particulars and treatment documents. The list included names of patients who had once suffered from cancer of brain, pancreas, liver, blood, uterus, breast - almost from all types of cancer and now after Nutrient Energy Treatment living normal and healthy lives.

**Here are some Survivors' Success Stories to fill our heart with ample hope and determination to defeat the dreadful disease.**

Name of the Patient:  
**Master Gaurav Awasthi**  
Gaziabad, Uttar Pradesh, India

Type of Cancer:  
**ACUTE LYMHOCYTIC LEUKAEMIA**

Under Treatment at DSRC – 1987-1990

Master Gaurav Awasthi was only 5 years old when the dreaded Cancer got hold of him. It was a bolt from the blue for his family and they felt it really hard to deal with. The conventional investigation and treatment started in a renowned hospital of Delhi but the result was far from satisfactory. Then they came to DSRC and the treatment began. As advised by DSRC, a blood test was administered to determine the effect of maintenance therapy upon patient's fluctuating health severely affected by the disease. With Nutrient Energy Medicine administered, positive effects were evident in patient's overall health condition. After 26 months of consecutive Nutrient Energy Treatment along with maintenance therapy, biopsy report of the testicle and abdominal investigation showed normal activities.

**Now, Mr. Gaurav Awasthi is leading a normal and healthy life for 21 years.**

Name of the Patient:  
**Mr. Anil Kumar Srivastava**  
Sultanpur, Uttar Pradesh, India

Type of Cancer:  
**ACUTE MYLOID LEUKAEMIA**

Under Treatment at DSRC – 1992-1994

Mr. Anil Srivastava was a jolly family man until he came to know that he got Cancer. Everything changed and the worry about the future of his family was of no less pain than cancer. In 1991, he was admitted in a prestigious cancer hospital of Mumbai. It was of little help to alleviate his health condition. Same year he also suffered from severe fungus infection in the lungs. Things started to change for him after he came to DSRC for treatment. After Nutrient Energy Medicine applied, positive effects were evident. Tests done at regular intervals corroborated this fact too. While under Nutrient Energy Medication, he never had to be hospitalized or never faced any crisis situation.

**After successfully completing his treatment at DSRC, now, he is leading a normal and healthy life for 21 years.**

Name of the Patient:  
**Mr. Sunil Singhal**  
Saharanpur, Uttar Pradesh, India

Type of Cancer:  
**ACUTE MYLOID LEUKAEMIA**

Under Treatment at DSRC – 1994-1998

The mischievous cancer attacked Mr. Sunil Singhal when he was just 25 and just started to fulfil his dreams. But Cancer scattered them all. After a brief chemotherapy session at a celebrated cancer research institute of Mumbai, he became fade up with conventional methods of treatment. His family decided to put a fight against the terrible disease and brought him to DSRC. Within just 10 days of taking the medicine, Bone Marrow Test's result showed 'In Remission'. After 24 months of Nutrient Energy Medication, his Bone Marrow Test Report confirmed his case as 'Remission Case'.

30 months after the medication started, patient's C.B.C. investigation report showed everything as normal.

**Now, Mr. Singhal is leading a normal and healthy life for 15 years.**

Name of the Patient:  
**Mr. Pankaj Kumar Thakur**  
Mohan Park West, Laxmi Nagar, Delhi

Type of Cancer:  
**C.M.L. II**

Under Treatment at DSRC – 2007 - Till Date

At the age of 22, Pankaj was diagnosed with Chronic Myelogenous Leukaemia at one of the most prestigious hospitals of Delhi. Pankaj was always a strong man ready to face the hardships of life and cancer tested his will to survive very well. Along with cancer, came insomnia, tiredness, laziness, chronic fever and fatal fear of death. Then, Pankaj summoned all the courage needed to declare war against the disease which was eating his good health day by day. So, with determination to put a fight against it, he came to DSRC. 3 months after the Nutrient Energy Medication started, all the uncomfortable feelings were gone, energy level increased and he started to involve himself in day to day activities. Blood test showed that the disease is under control.

**And now, he is living a happy and healthy life, loaded with hope.**

Name of the Patient:  
**Mr. Prakash Mishra**  
Patna, Bihar, India

Type of Cancer:  
**NON HODGKIN'S LYMPHOMA**

Under Treatment at DSRC – 2000-2001

Cancer doesn't spare anyone. Mr. Prakash Mishra learnt it bitterly when he got detected with cancer. At the beginning days of the illness he thought it's just any other disease he can cope with. But soon, life for him became a nightmare full of pain and anguish. To make situations worse, tuberculosis came out of nowhere. To save him from this deathtrap, his family admitted him in a hospital famous for cancer treatment in Mumbai. Six cycles of chemotherapy and TB medications soon wear him out and biopsy report showed relapse of the disease. Hopefully, his family members thought about giving Nutrient Energy Treatment a try. Immense improvement was evident in his health within just 3 months of taking Nutrient Energy Medication. CT scan of abdomen and pelvis confirmed no abnormality. Both lungs also regained their normal condition confirmed by X-Ray reports.

**Now, Mr. Prakash Mishra is leading a normal and healthy life for 12 years.**

Name of the Patient:  
**Mr. Ram Shankar Verma**  
Bharthana, Etawah, Uttar Pradesh

Type of Cancer:  
**CA GALLBLADDER**

Under Treatment at DSRC – 1995-1997

Shri Ram Shankar Verma's case has been a rare case of recovery from one of the most life taking form of cancer, Metastasis Liver. One day suddenly he felt acute pain in the stomach. Ultrasound investigations diagnosed gall bladder stone. Operation was advised. When he went to Agra for operation the surgeon suspected cancer and the CT scan reports confirmed cancer in the liver and the gall bladder. He bestowed his hope and trusted upon DSRC for recovery. After studying Shri Verma's reports, Ancient Ayurveda based Nutrient Energy Treatment was prescribed by Ayurvedacharyas of DSRC. In two months time, he could resume eating all those that were banned for him. After thirteen months of taking the medicine his abdominal and other health related problems just got vanished and in a letter addressed to DSRC, he wrote "I am confident that I will live..."

**Since then, he is living a normal and healthy life without even a trace of the disease.**

Name of the Patient:  
**Mrs. Annapurna Maheswari**  
Motiganj, Bharthana, Uttar Pradesh

Type of Cancer:  
**CA LIVER**

Under Treatment at DSRC – 1993-1994

Cancer doesn't ring a bell before coming. 68 years old Mrs. Annapurna Maheswari lost all interest in putting a fight against Cancer when she came to know about it. Her heydays of spending quality time with family, especially the grandchildren suddenly came to an end when sonography report showed that she is suffering from malignancy gallbladder with secondary's liver. But her family thought differently and the treatment began. Just after 6 weeks of Nutrient Energy Medication administered, there was immense improvement in appetite, sleep and general health. She took total 80 weeks dosages of the medicine and defeating cancer was just a matter of time. Investigation showed everything as normal, rather functioning perfectly.

**Now, Mrs. Annapurna Maheswari is leading a normal and healthy life for 17 years, playing with her grandchildren.**

Name of the Patient:  
**Mrs. Sharda Devi**  
Gar Road, Meerut, Uttar Pradesh

Type of Cancer:  
**CA GALLBLADDER**

Under Treatment at DSRC – 1996-1998

The general feeling about cancer among the mass is 'it's incurable and it means certain death'. But it's far from true. Mrs. Sharda Devi got afflicted with cancer at the age of 58. Cytology from gallbladder mass indicted Papillo Adeno-Carcinoma of gallbladder. The misery and the pain caused by the disease were unbearable to endure. In this crisis situation, where her life was hanging by thin thread called hope, she proved to be stronger than the dreadful disease. Her family brought her to DSRC and treatment commenced immediately. Within just 15 days, the general ailment symptoms like chronic fever and headache vanished. She regained her appetite soon. After 3 months, everything was looking better than ever. Diagnostic report confirmed that the tumour in the gallbladder was gone and she gained 17 kilos, baffling everyone. USG done after 14 months after the treatment started showed liver, pancreas, spleen and kidney in perfect shape. With 21 months of Nutrient Energy Medication she emerged victorious against cancer.

**Now, she is living a normal and healthy life for 15 years.**

Name of the Patient:  
**Master Paramdeep Singh Bhatiya**  
Pipaliya Road, Indore, Madhya Pradesh  
Type of Cancer:  
**ACUTE LYMPHOCYTIC LEUKAEMIA**  
Under Treatment at DSRC – 1999-2001

Some cases appear regarding cancer which shakes us to the core and we start to think 'What's actually happening with this world!' Such a case is Master Paramdeep Singh Bhatiya's. The brutal cancer attacked him when he was only 2 years old. It caused as much pain for him as for his family.

After Acute Lymphocytic Leukaemia got detected by Bone Marrow Aspiration, his family didn't waste a valuable moment and came to DSRC for little Paramdeep's treatment. Nutrient Energy Medication started right away. Within one year of consecutive medicine dosages, all the blood reports started showing good improvement. After 2 years of successful Nutrient Energy Treatment, for his family, cancer started to seem like just a distant memory of a nightmare from the past.

**Now Master Paramdeep is living a happy and healthy life for 10 years.**

Name of the Patient:  
**Mrs. Kamalkali Mukherjee**  
Siliguri, Darjeeling, West Bengal

Type of Cancer:  
**CA STOMACH**

Under Treatment at DSRC – 1998–2002

Mrs. Mukherjee's story of surviving cancer is indeed an epic. Her heydays suddenly came to an end when she suddenly fell ill with persistent pain in the stomach. Investigation procedure done at Siliguri and Kolkata revealed that she was suffering from cancer and 75% of her stomach had turned septic, even the pancreas was not spared. Soon, she got operated upon to eliminate the spread of the disease by removing the afflicted parts. After the operation, doctors discovered that stitching is not possible as the condition of the operated area won't allow it. Helpless doctors sounded the death knell for Mrs. Mukherjee – she was to die within six months. But Mr. Mukherjee never lost hope and neither did strong and courageous Mrs. Mukherjee. Suddenly one day Mr. Mukherjee came to know about DSRC from an auto rickshaw driver. After just 15 days of Nutrient Energy Treatment, her severely affected stomach started to heal. Slowly and steadily her health condition improved and with time she gradually started the journey towards a normal and healthy life.

**Now, she is inspiration personified for many cancer patients.**

Name of the Patient:  
**Mr. Kamal Singh Sharma**  
Roorkee, Haridwar, Uttar Pradesh

Type of Cancer:  
**CA PANCREAS**

Under Treatment at DSRC – 1995-1997

It has been era now that Mr. Sharma is in good health, living a wholesome family life, but there were days when time arrived to a standstill for the Sharma family as Mr. Sharma was diagnosed with Pancreatic Cancer possibly spread up to liver, at a renowned healthcare institution of Delhi. Mr. Sharma became speechless and perhaps began to count his last days. Adding to his misery, he also got detected with jaundice and pneumonia. But he didn't succumb to dismay. With courage, confidence and a determination to overcome the diseases, he came to DSRC. Treatment began immediately. At the first few months, Nutrient Energy Treatment resulted in sound sleep, increased appetite, weight gain and disappearance of jaundice. With time, Mr. Sharma regained his good health and confidence to survive. After 7 months he was able to resume his day-to-day works. Within 9 months he defeated the dreadful disease and emerged victorious.

**Now he is living a normal and healthy life for 15 years.**

Name of the Patient:  
**Mrs. Gouri Sengupta**  
Berhampur, Murshidabad, West Bengal

Type of Cancer:  
**CA RECTUM**

Under Treatment at DSRC – 1994–1997

Sometimes, it is not about expensive treatments but the determination to heal, to fight back, proves decisive to overcome cancer. When 72 years old Mrs. Gouri Sengupta was diagnosed with cancer, everyone including herself thought it is end of the road for her. CT Scan showed Metastatic in Lymph Nodes. Cancer at her age always proves to be fatal as immune power of the body decreases with age. But Mrs. Sengupta was never a quitter. She always was a strong woman and the strong always moves forward, no matter what they find in their way. So, she decided that she will stand against cancer. She came to DSRC in 1994 for treatment. Against all odds, she started to respond to the treatment and appetite, sleep, general health condition improved within months. Gradually she regained physical strength and in 1997 she wrote a letter to DSRC stating how they changed everything for her and gave her a new lease of life.

**Now, she is living a normal and healthy life for 14 years.**

Name of the Patient:  
**Master Prateek Bansal**  
New Delhi

Type of Cancer:  
**OSTEOGENIC SARCOMA (R)**

Under Treatment at DSRC – 1995–1997

Cancer is a curse for humanity. Young to old, everyone is becoming prey of this disease. Lively, adorable, everyone's favourite Master Prateek Bansal got afflicted by Cancer when he was only 10 years old. High grade Spindle Cell Sarcoma was detected which spread up to his bone and soft tissues. Combating Cancer, it was not easy for him or his family. Doctors advised to undergo mid-thigh amputation. During this time sarcoma was already spread up to his lungs. So, doctors decided to go for amputation. Now, what could be worse than this! But they got DSRC by their side and probably the worst was over. After the sore healed up, treatment with Nutrient Energy Medication started on 1995. Within one month of treatment, CT Scan confirmed that the size of lesion got reduced. Four months later, phenomenal improvement was evident in patient's health. From 36 kg, patient's weight shot up to 50 kg. After 9 months of medication, CT Scan confirmed everything is normal. Prateek started going to school and cancer started to look like just a bad dream from the past.

**Now, Master Prateek Bansal is leading a normal and healthy life for 15 years.**

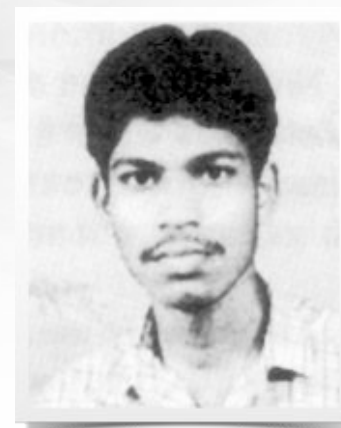

Name of the Patient:  
**Mr. S. Sarkhel**  
Hooghly, West Bengal

Type of Cancer:  
**OSTEOGENIC SARCOMA**

Under Treatment at DSRC – 1994–1997

Very few know that chances of being afflicted by cancer is, in men 1 out of 2 and in women 1 out of 3. So, when cancer attacked young and energetic Mr. S. Sarkhel, it caught him by sheer surprise. Cytology test at a renowned pathological institute confirmed Osteogenic Sarcoma. Histopathological Investigation was also done at Kolkata's most esteemed cancer research institutes to get a broader picture of the disease. The ray of hope arrived at Sarkhel household as they came to know about DSRC and their path-breaking way of treating cancer. Nutrient Energy played a vital role in reviving his good health just within few days of commencing the treatment. The process of increase and spread of the tumour stopped and the pain subsided. After 4 months of treatment softening of the tumour was noticed. As the patient's health condition improved, the gap between administering Nutrient Energy Medication was increased. With time and Nutrient Energy, Mr. Sarkhel was finally able to defeat the dreadful disease.

**Now, Mr. Sarkhel is living a normal and healthy life for 15 years.**

Name of the Patient:  
**Mrs. Rita Singh**  
Kapsethi, Varanasi, Uttar Pradesh

Type of Cancer:  
**INTRA CEREBRAL LYMPHOMA**

Under Treatment at DSRC – 1991–1997

Holding on, fighting with courage and confidence is the secret of defeating cancer. Mrs. Rita Singh, a simple housewife from Varanasi, proved it with her story of surviving cancer. Mrs. Rita Singh only started her happy family life when the malicious cancer struck her from nowhere and nearly ruined her life. Investigation done at Varanasi and Lucknow's biggest hospitals confirmed that she was suffering from Controblastic Lymphoma. Seeing that, conventional treatment wasn't doing much to improve her deteriorating health condition, her family decided to bestow their trust upon the expert in treating cancer. At DSRC, treatment begun to bring back her good health and jolly days. Ten days after treatment, she started to respond to it phenomenally. All the side symptoms like nausea and vomiting were gone. Within just a month, her neurological problems came under control. After 3 months CT Scan affirmed that out of 6 malignant tumours, 3 vanished and size of 3 others' got reduced. Soon, she resumed her normal day-to-day life away from the misery and memory of cancer.

**Now, Mrs. Rita Singh is living a normal and healthy life for 15 years.**

Name of the Patient:  
**Master Sisir Mokhati**  
Godown Street, Chennai, Tamilnadu

Type of Cancer:  
**MALIGNANT ASTROCYTOMA**

Under Treatment at DSRC – 1996–1997

Master Sisir Mokhati got detected with Cancer at the age of 13. Words like smile, happiness were got abandoned from the household soon after this disaster. Investigation at Chennai's most renowned hospital hinted most fatal and complicated kind of Astrocytoma, Oligodendroglioma. Later National Institute of Mental Health and Neuro Sciences confirmed the disease. After trying some conventional method, his family came to us for some sure results. Beating all the odds Sisir started to respond to the treatment. Three months of consecutive Nutrient Energy Medication played a pivotal role in rectifying his overall health condition. Problems like headache, weakness symptoms in organs, distortion of face were gone. After 6 months, MRI report showed lesion significantly reduced and reduction in the tumour size too. Urine and eye tests done after 10 months of medication, showed everything as usual.

**Now, he is leading a normal and healthy life for 14 years.**

Name of the Patient:  
**Mrs. Archana Sen Gupta**  
Chakdah, Nadia, West Bengal

Type of Cancer:  
**NON-HODGKIN'S LYMPHOMA**

Under Treatment at DSRC – 1990–1991

Cancer doesn't provide you with many choices. But making the right choice matters. After getting diagnosed with Cancer Mrs. Archana Sen Gupta made the right choice. Microscopic examination showed that she is suffering from Non-Hodgkin's Lymphoma (Diffuse Large Cell type). Conventional treatment started in a prominent hospital of Kolkata. But the treatment was making her weak, fragile and gradually disappointed. Then suddenly one day her family friends told her about the success stories associated with DSRC in treating cancer. With a strong urge to live she came to DSRC and the miracle happened. After 1 year and a thorough Nutrient Energy Treatment, she felt that she can easily defeat the fatal disease and the fear of death. She was glad with her evident improvement in health condition and she wrote to DSRC "Within the first week of treatment I felt relief, gradually I started improving. Now, I am completely all right".

**Securing victory over cancer, now Mrs. Archana Sen Gupta is leading a normal and healthy life for 21 years.**

Name of the Patient:  
**Mr. Abnish Kumar Dwivedi**  
Ashok Marg, Lucknow, Uttar Pradesh

Type of Cancer:  
**HODGKIN'S DISEASE (LYMPH NODE, STAGE-III B)**

Under Treatment at DSRC – 1993–1995

Disasters tend to struck us when we are least expecting it. Everything was going fine and as planned for Mr. Abnish Kumar Dwivedi when his fate took an unexpected turn. Diagnosis revealed that he got afflicted by Hodgkin's Disease Lymph Node. The Disease was detected as Lymphocytic Lymphoma - Stage-III B. It is one of the most fatal stages of cancer. Chances of recovery from this stage are vey low. To fight with one of the harshest reality of life, he had to take 24 chemotherapy injections between 1990 and 1991. Tests done after the chemotherapy session indicted that there was no such mitigation in Lymphocytic Lymphoma. Hopeless, devastated mentally and physically, he came to DSRC to put an end to his misery. He stopped taking all the other medications. Within 5 months of Nutrient Energy Treatment he sent a favourable report of improvement in health to DSRC. Reports of tests done also established this fact. The swelling in the shoulder soon reduced and after 1 year he felt that death clutch of cancer is loosening. In 1997, he came to DSRC to submit his report of complete recovery.

**Now, Mr. Abnish Kumar Dwivedi is leading a normal and healthy life for 16 years.**

Name of the Patient:  
**Mr. Prashant Lakra**  
DDA Staff Quarter, Rajori Garden, New Delhi

Type of Cancer:  
**CA ASTROCYTOMA**

Under Treatment at DSRC – 1999–2001

Brilliant at studies, loved by everyone, life was going easy for 16 years old Mr. Prasant Lakra. He was dreaming of a successful life ahead when harsh reality came crashing down on him. He fell ill severely and there was not even a hint of recovery or diminution in the disease. Worried and scared about what happened to their child, his parents took him to a hospital in New Delhi. Investigation done there, clearly indicted Astrocytoma, the deadliest and most complicated form of cancer, as it is related to the brain. To save him from this brutal disease, him family admitted him in one of the most prominent cancer research institutes of New Delhi where he was operated upon. But there was little improvement in his health condition even after the operation. To change the scenario regarding his health condition, his family members decided to consult DSRC, the specialist in alternate treatment of cancer. After examining his health condition, 'Ayurvedacharyas' of DSRC advised Nutrient Energy Treatment. So, the treatment started right way. 2 years later, the effect of the treatment came to light. When MRI was done, impression was 'Post OP changes with no recurrent disease'.

**Now, Mr. Prashant Lakra is living a healthy and normal life for 11 years.**

Name of the Patient:  
**Mrs. Neeta Bhatt**  
Asansol, Bardhaman, West Bengal

Type of Cancer:  
**COLON CANCER**

Under Treatment at DSRC – 1999–2001

Neeta Bhatt and Deepak Bhatt constituted a happy and content family from Asansol. Everything was more than perfect, more than they desired. Happiness was abundant in Bhatt household. So, when misfortune came pounding the alarm, they were least ready for it. Newlywed Neeta was not more than 25-26 years old when she developed severe pain in the stomach. At first, doctors thought that it's only appendicitis, but during operation a tumour was found. Biopsy detected colon cancer. The unexpected situation put the family at their wit's end. But Deepak did not lose his calm or patience. By coincidence he came to know about DSRC's new edge treatment in treating cancer from a newspaper. Without wasting any more time he took Neeta to DSRC for treatment. With help of Nutrient Energy Treatment, gradual improvement in Neeta's health was evident. The dark shadow of death was quickly removed from the Bhatt household. Slowly she started regaining her sound health. Within the year 2000, it was sure that she defeated the mischievous disease.

**Now, the Bhatt's say that DSRC is Neeta's 'Second Birth Place' as she is leading a complete normal and healthy life for 12 years.**

## They have also found the answer to cancer

Living life in a constant fear of being attacked by the scorpion of death is no more a way of live. A strong light of hope has come over to vanquish the unworldly disease and in that shimmering light even the darkness of its shadow loses its existence. A new dawn has arrived. Come, let's defeat all that is dark and move towards the light that is awaiting for us.
